The Continuum of Care (CoC) Program is designed to promote community-wide commitment to the goal of ending homelessness; to quickly re-house homeless individuals, families, persons fleeing domestic violence, and youth; and provide the services needed to help such individuals move into housing with the goal of long-term stability and self-sufficiency.

The CoC program will fund Rapid Re-Housing (RRH), Permanent Supportive Housing (PSH), Joint Transitional Housing & Rapid Re-Housing (TH/RRH), and HMIS Expansion. To learn more about each of these activities <https://www.hudexchange.info/programs/coc/>

New Project Applications can be either an expansion to an existing project or a new set of activities that work together to promote housing stability for a group of qualified program participants. Funds can be used to create new housing and service projects designed to move people experiencing literally homeless or chronic homelessness into Permanent Housing using the Housing First Approach. These projects must align with eligible housing interventions: PSH, RRH, or TH/RRH. Project applicants should consult with GHURA and the Guam Homeless Coalition to determine which of these options will be available in the CoC Competition. Estimated funds available will be forthcoming for new projects.
